We are

CVQO

Teamwork and Personal Development in the Community

A qualification for 16-19 year old members of uniformed youth groups, providing recognition of their teamwork, leadership and community skills

BTEC Level 2

#BuildYourFuture

What is the qualification?

CVQO's new BTEC Level 2 qualification in Teamwork and Personal Development in the Community (TPD) gives you recognition for all of the fantastic skills and achievements you gain while you are a member of a UK uniformed youth organisation.

How does the qualification work?

TPD is comprised of 15 individual units. Unit 15 will be released in early 2022. Unit 1 is mandatory; once this has been completed you can select a combination of the other units to create your own pathway through the course. These include three music units, which are also combined within the qualification.

What support is available?

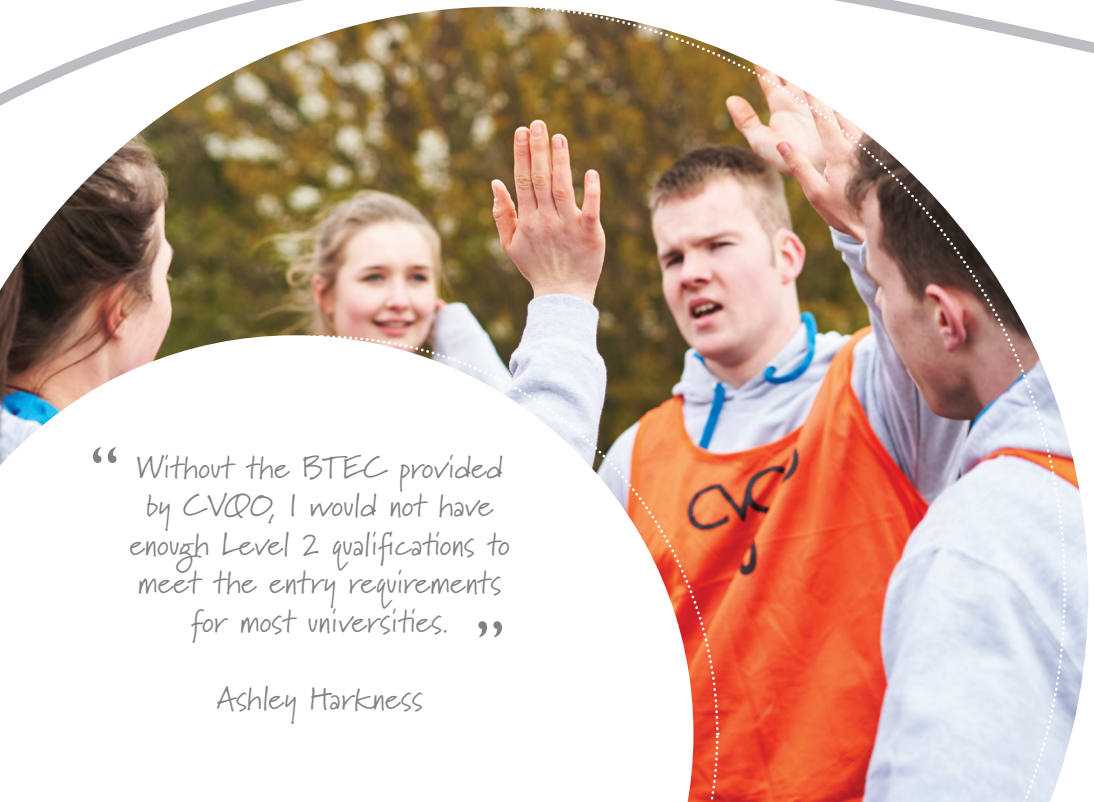

You will be fully supported at every stage of your learner journey by CVQO, from enrolment right through to course completion.

What will I learn?

The BTEC Level 2 in TPD is an exciting, interactive qualification and includes units such as 'Developing Effective Teamwork Skills', 'Preparing for Employment', 'Developing Effective Communication Skills' and 'Volunteering in the Community'. It will give you an excellent grounding on the crucial role that teamwork, leadership, social action and citizenship qualities play in local communities.

How can I study the qualification?

When you enrol, you will be taught using a blended learning approach (a combination of face to face and remote delivery).
You will also have a choice of three different ways to submit your work for assessment: paper workbook, e-workbook or Moodle.
Our Moodle course utilises interactive online learning packages to help guide you through the qualification.

"Without the BTEC provided by CVQO, I would not have enough Level 2 qualifications to meet the entry requirements for most universities."

Ashley Harkness

Flexible teaching, learning and assessment

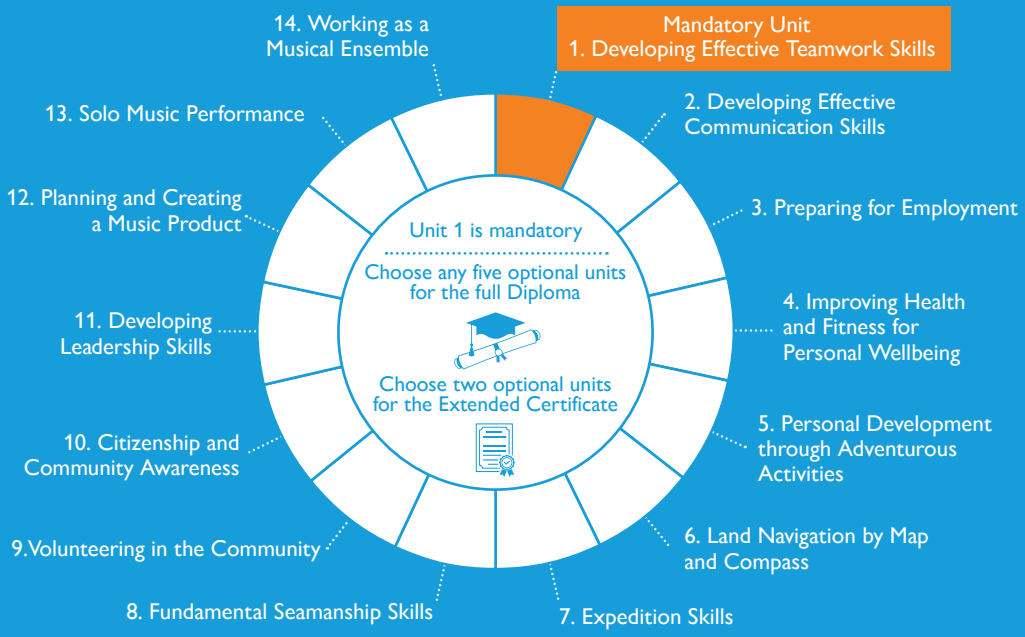

Our delivery methods also include

- Support for PC, laptop, tablet and smartphone
- Interactive online learning and assessment
- Virtual delivery and support sessions
