Welcome to the workbook

for Unit 4

This workbook is for you to submit your answers for the written tasks to complete Unit 4.

Further instructions are contained in the Learning Guide, which you should use to help you learn and understand how to complete the tasks. If you feel that you need support or assistance with completing the workbook please ask your VQO, your tutor or email tpd@cvcollege.org and we will get back to you.

Referencing

You **must** use your own words to answer the tasks.

There may be an occasion when a quote from a resource (e.g. a website or a Cadet Vocational College learning resource) can be used to *support* your written answer. If you do this, you **must** use quotation marks, name the source and if applicable, state a page number. For example, "Having team members you trust is key to the success of any team." (Learning Guide, page 5).

Glossary

The following command verbs introduce the different tasks in this workbook and their meanings are given below:

Describe	Think of this as answering the question 'what is it?'. Include a series of relevant points to 'paint a picture with words'.
Explain	Think of this as 'how does something work?'. You need to provide an explanation first and then give your reasons for doing so. Using words such as 'because' or 'therefore' will help you to do this.
Identify	This usually tests your skill of remembering information. You might select from a list of options, point something out, or give a list of main features.
Review	Look back over the topic or activity to provide a detailed evaluation with conclusions and decide what was effective or not. Using specific examples will add strength to answers.

Task 7: Be able to undertake a personal health and fitness improvement plan (AC 4.1, 4.2, 4.3 & 4.4)

Part a.

PRODUCE a **four week** health and fitness plan.

This plan should set out to achieve a SMART target that you have set for yourself based on your own health and fitness. This could follow on from the fitness tests you did earlier *or* be something completely different.

Use the template below to record your SMART target.

My SMART target	
Specific

Realistic	
Time-related	

Use the template provided over the page to help you with the structure of your four week plan.

Part b.

UNDERTAKE your health and fitness plan and complete a training log.

You will need to complete training entries as you progress through your personal health and fitness plan. This will provide the evidence that you have undertaken what you set out to do.

Ensure that you are honest, as this will help you when you come to review the effectiveness of your programme.

Example

	Did I follow my plan?	Comments/results
Week 1	*Yes (in part).* *For 4 of the 7 days.*	*1.5 mile run - 17.05 minutes. This was a struggle to complete and I walked twice. It was a really hot day.* *1.5 mile speed walk. This was much better today and I wasn't too out of breath - I'm very proud of myself.* *2 x 10 minutes runs. Both were slow and steady and I didn't stop on either. Much cooler temperatures on Thursday.* *I didn't attend my 45 minute sports class on Friday night as I was late home from college.*

Now complete **your** training log:

	Did I follow my plan?	Comments/results
Week 1		
Week 2		
Week 3		
Week 4

Complete the table below to reflect on your health and fitness plan and its effectiveness.

Review questions	Answer
What went well across the four week health and fitness programme?	
If you did NOT meet your target, why was this? (Were there any contributing factors?)	
What impact did this have on you? (Consider the impact it had on your physical, mental and emotional wellbeing)	
If you were to design another personal health and fitness plan, what would you differently? (Identify at least one point)
